

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1. Product identifier                     |   |
|---|---|
| Trade name or<br>designation of the mixture | GREENLITE EXPRESS-24 PLUS   |
| Registration number                         | -   |
| Synonyms                                    | GREENLITE EXPRESS-24  |
| Brand Code                                  | 5522, 395C  |
| Issue date                                  | 25-July-2016  |
| Version number                              | 01  |
| 1.2. Relevant identified uses of            | f the substance or mixture and uses advised against   |
| Identified uses                             | For Industrial Use Only   |
| Uses advised against                        | Users should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations. |
| Manufacturer                                | HarbisonWalker International Limited  |
| Address                                     | Dock Road South<br>Bromborough<br>Wirral<br>United Kingdom  |
| Division                                    | United Kingdom  |
| Contact person                              | Corporate Product Safety  |
| General Phone:                              | 44.(0)151.641.5900  |
| Email address                               | REACH@thinkhwi.com  |
| CHEMTREC 24 HOUR<br>EMERGENCY #             |   |

## **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

### Classification according to Directive 67/548/EEC or 1999/45/EC as amended

This preparation does not meet the criteria for classification according to Directive 1999/45/EC as amended.

### Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

#### **Hazard summary**

| nazaru Summary                |  |
|-------------------------------|--|
| Physical hazards              | Not classified for physical hazards.   |
| Health hazards                | Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects. |
| Environmental hazards         | Not classified for hazards to the environment.   |
| Specific hazards              | Prolonged exposure may cause chronic effects.  |
| Main symptoms                 | Direct contact with eyes may cause temporary irritation.   |
| 2.2. Label elements           |  |
| Label according to Regulation | (EC) No. 1272/2008 as amended  |
| Hazard pictograms             | None.  |
| Signal word                   | None.  |
| Hazard statements             | The mixture does not meet the criteria for classification.   |
| Precautionary statements      |  |
| Prevention                    | Observe good industrial hygiene practices.   |
| Response                      | Wash hands after handling.   |
| Storage                       | Store away from incompatible materials.  |
| Disposal                      | Dispose of waste and residues in accordance with local authority requirements.   |
|                               |  |

Users should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Overexposure to the respirable dust of crystalline silica (quartz or cristobalite, less than or equal to 5 microns in size) may lead to silicosis in humans, which is a progressive and irreversible lung disease. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations. None known.

### 2.3. Other hazards

# **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

### **General information**

| Chemical name          |          |    | %        | CAS-No. / EC<br>No.     | REACH Registration No. | INDEX No. | Notes |

Other components below reportable levels 70 - < 80

## List of abbreviations and symbols that may be used above

CLP: Regulation No. 1272/2008. DSD: Directive 67/548/EEC. M: M-factor

vPvB: very persistent and very bioaccumulative substance.

PBT: persistent, bioaccumulative and toxic substance.

#: This substance has been assigned Community workplace exposure limit(s).

# **SECTION 4: First aid measures**

| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |  |  |  |
|--|--|--|--|--|
| 4.1. Description of first aid mea  | 4.1. Description of first aid measures   |  |  |  |
| Inhalation   | Move to fresh air. Call a physician if symptoms develop or persist.  |  |  |  |
| Skin contact   | Wash off with soap and water. Get medical attention if irritation develops and persists.                         |  |  |  |
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.                                     |  |  |  |
| Ingestion  | Rinse mouth. Get medical attention if symptoms occur.  |  |  |  |
| 4.2. Most important<br>symptoms and effects, both<br>acute and delayed                   | Direct contact with eyes may cause temporary irritation.   |  |  |  |
| 4.3. Indication of any<br>immediate medical attention<br>and special treatment<br>needed | Treat symptomatically.   |  |  |  |
| SECTION 5: Firefighting  | measures   |  |  |  |
| General fire hazards   | Not available.   |  |  |  |
| 5.1. Extinguishing media<br>Suitable extinguishing<br>media                              | Use fire-extinguishing media appropriate for surrounding materials.  |  |  |  |
| Unsuitable extinguishing media   | Not available.   |  |  |  |
| 5.2. Special hazards arising<br>from the substance or<br>mixture                         | Not available.   |  |  |  |
| 5.3. Advice for firefighters<br>Special protective<br>equipment for<br>firefighters      | Not available.   |  |  |  |

# **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

|   | For non-emergency personnel                       | Keep unnecessary personnel away. For personal protection, see section 8.                               |
|---|---|--|
|   | For emergency<br>responders                       | Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.          |
| - | Environmental cautions                            | Avoid discharge into drains, water courses or onto the ground.   |
|   | Methods and material for tainment and cleaning up | Stop the flow of material, if this is without risk. Following product recovery, flush area with water. |
|   | Reference to other tions                          | For personal protection, see section 8. For waste disposal, see section 13 of the SDS.                 |
|   |   |  |

## **SECTION 7: Handling and storage**

| 7.1. Precautions for safe handling                                      | Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not breathe dust. Avoid prolonged exposure. |
|---|--|
| 7.2. Conditions for safe<br>storage, including any<br>incompatibilities | Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).  |
| 7.3. Specific end use(s)  | Not available.   |

## **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### **Occupational exposure limits**

#### UK. EH40 Workplace Exposure Limits (WELs)

| Components  | Туре  | Value                             | Form                                |
|---|---|-----------------------------------|-------------------------------------|
| Aluminium Oxide<br>(Non-Fibrous) (CAS<br>1344-28-1) | TWA   | 4 mg/m3                           | Respirable dust.                    |

| . Exposure controls                                 |   |                                   |                                     |
|   |   |                                   |                                     |

| Appropriate engineering<br>controls | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates sh be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or oth engineering controls to maintain airborne levels below recommended exposure limits. If exposur limits have not been established, maintain airborne levels to an acceptable level. |  |  |
|-------------------------------------|--|--|--|
| Individual protection measure       | es, such as personal protective equipment  |  |  |
| General information                 | Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.  |  |  |
| Eye/face protection                 | Wear safety glasses with side shields (or goggles).  |  |  |
| Skin protection                     |  |  |  |
| - Hand protection                   | Wear appropriate chemical resistant gloves.  |  |  |
| - Other                             | Wear suitable protective clothing.   |  |  |
| Respiratory protection              | Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.  |  |  |
| Thermal hazards                     | Wear appropriate thermal protective clothing, when necessary.  |  |  |
|                                     |  |  |  |

**Hygiene measures** 

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls

Environmental manager must be informed of all major releases.

# **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

| Appearance                                 |                 |
|--|-----------------|
| Physical state                             | Solid.          |
| Form                                       | Solid.          |
| Colour                                     | Not available.  |
| Odour                                      | Not available.  |
| Odour threshold                            | Not available.  |
| рН   | Not available.  |
| Melting point/freezing point               | Not available.  |
| Initial boiling point and<br>boiling range | Not available.  |
| Flash point                                | Not available.  |
| Evaporation rate                           | Not available.  |
| Flammability (solid, gas)                  | Not available.  |
| Upper/lower flammability or ex             | cplosive limits |
| Flammability limit - lower<br>(%)          | Not available.  |
| Flammability limit -<br>upper (%)          | Not available.  |
| Vapour pressure                            | Not available.  |
| Vapour density                             | Not available.  |
| Relative density                           | Not available.  |
| Solubility(ies)                            |                 |
| Solubility (water)                         | Not available.  |
| Solubility (other)                         | Not available.  |
| Partition coefficient<br>(n-octanol/water) | Not available.  |
| Auto-ignition temperature                  | Not available.  |
| Decomposition temperature                  | Not available.  |
| Viscosity                                  | Not available.  |
| Explosive properties                       | Not available.  |
| Oxidizing properties                       | Not available.  |

#### **9.2. Other information** No relevant additional information available.

# **SECTION 10: Stability and reactivity**

| 10.1. Reactivity                          | The product is stable and non-reactive under normal conditions of use, storage and transport.   |
|---|---|
| 10.2. Chemical stability                  | Material is stable under normal conditions.   |
| 10.3. Possibility of hazardous reactions  | No dangerous reaction known under conditions of normal use.   |
| 10.4. Conditions to avoid                 | Contact with incompatible materials.  |
| 10.5. Incompatible materials              | Acids. Fluorine. Chlorine.<br>Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not<br>be specific to industrial application exposure. |
| 10.6. Hazardous<br>decomposition products | No hazardous decomposition products are known.  |

# **SECTION 11: Toxicological information**

| SECTION 11: Toxicological information                 |  |  |  |
|---|--|--|--|
| General information                                   | Occupational exposure to the substance or mixture may cause adverse effects.   |  |  |
| Information on likely routes of exposure              |  |  |  |
| Inhalation  | Prolonged inhalation may be harmful.   |  |  |
| Skin contact  | No adverse effects due to skin contact are expected.   |  |  |
| Eye contact   | Direct contact with eyes may cause temporary irritation.   |  |  |
| Ingestion   | May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.  |  |  |
| Symptoms  | Exposure may cause temporary irritation, redness, or discomfort.   |  |  |
| 11.1. Information on toxicolog                        | ical effects   |  |  |
| Acute toxicity  | No data available.   |  |  |
| Skin corrosion/irritation                             | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Serious eye damage/eye<br>irritation                  | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Respiratory sensitisation                             | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Skin sensitisation                                    | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Germ cell mutagenicity                                | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Carcinogenicity                                       | In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. Risk of cancer cannot be excluded with prolonged exposure. |  |  |
| Reproductive toxicity                                 | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Specific target organ toxicity<br>- single exposure   | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Specific target organ toxicity<br>- repeated exposure | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Aspiration hazard                                     | Due to partial or complete lack of data the classification is not possible.  |  |  |
| Mixture versus substance<br>information               | No information available.  |  |  |
| Other information                                     | This product has no known adverse effect on human health.  |  |  |
| CECTION 12. Ecological                                |  |  |  |

# **SECTION 12: Ecological information**

12.1. Toxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

| 12.2. Persistence and degradability                | No data is available on the degradability of this product.  |
|--|---|
| 12.3. Bioaccumulative potential                    | No data available.  |
| Partition coefficient<br>n-octanol/water (log Kow) | Not available.  |
| Bioconcentration factor (BCF)                      | Not available.  |
| 12.4. Mobility in soil                             | No data available.  |
| 12.5. Results of PBT<br>and vPvB<br>assessment     | Not available.  |
| 12.6. Other adverse effects                        | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

# **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

| Residual waste         | Not available. |
|------------------------|----------------|
| Contaminated packaging | Not available. |
| EU waste code          | Not available. |

### **SECTION 14: Transport information**

#### ADR

Not regulated as dangerous goods.

#### RID

Not regulated as dangerous goods.

#### ADN

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

**14.7. Transport in bulk** Not applicable.

according to Annex II of MARPOL 73/78 and the IBC Code

## **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### **EU** regulations

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex I Not listed.

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex II Not listed.

Regulation (EC) No. 850/2004 on persistent organic pollutants, Annex I Not listed.

**Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1** Not listed.

**Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 2** Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 3 Not listed.

#### Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex V Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry Not listed.

### Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

#### Authorisations

| Regulation (EC) No. 190<br>Not listed.                     | 7/2006, REACH Annex XIV Substances subject to authorization, as amended   |
|--|---|
| <b>Restrictions on use</b>                                 |   |
| Not regulated.   | 7/2006 Annex XVII Substances subject to restriction on marketing and use  |
| Directive 2004/37/EC: o<br>mutagens at work<br>Not listed. | n the protection of workers from the risks related to exposure to carcinogens and   |
|  | the safety and health of pregnant workers and workers who have recently given birth or  |
| Not listed.  |   |
| Other EU regulations                                       |   |
| Directive 96/82/EC (Sev                                    | eso II) on the control of major-accident hazards involving dangerous substances   |
| Not listed.  |   |
| Directive 98/24/EC on t<br>agents at work                  | he protection of the health and safety of workers from the risks related to chemical  |
| Not listed.  |   |
| Directive 94/33/EC on t                                    | he protection of young people at work   |
| Not listed.  |   |
| Other regulations  | The product is classified and labelled in accordance with EC directives or respective national laws<br>This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006. |
| National regulations                                       | Follow national regulation for work with chemical agents.   |
| 15.2. Chemical safety<br>assessment                        | No Chemical Safety Assessment has been carried out.   |

# **SECTION 16: Other information**

|  | Net and the   |
|--|---|
| List of abbreviations  | Not available.  |
| References   | Not available.  |
| Information on evaluation<br>method leading to the<br>classification of mixture        | Not available.  |
| Full text of any statements or<br>R-phrases and H-statements<br>under Sections 2 to 15 | None.   |
| <b>Revision information</b>  | None.   |
| Training information   | Not available.  |
| Disclaimer   | This information is based on our present knowledge on creation date. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. |
