

# SAFETY DATA SHEET

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Trade name or designation of the mixture	KAST-O-LITE 20-45 G PLUS; QI	G VLITE 35 CASTABLE; QIG VLITE 35 GUNNED
Registration number	-	
Synonyms	None.	
Brand Code	0731, 121C, 122C, 775B, 0019	
Issue date	25-May-2018	
Version number	01	
1.2. Relevant identified uses of	f the substance or mixture and	d uses advised against
Identified uses	For Industrial Use Only	
Uses advised against	as well as their potential hazard	potential presence of respirable dust and respirable crystalline silica s. Appropriate training in the proper use and handling of this equired under applicable regulations.
1.3. Details of the supplier of t	he safety data sheet	
Supplier		
Company name	HarbisonWalker International	
Address	1305 Cherrington Parkway, Suite Moon Township, PA 15108, US/ United States	
Division		
Telephone	General Phone: CHEMTREC EMERGENCY US/CAN ONLY	412-375-6600 1-800-424-9300
e-mail	sds@thinkHWI.com	
Contact person	HWI USA	
1.4. Emergency telephone number	Not available.	

## **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classificatior applies.

## Classification according to Regulation (EC) No 1272/2008 as amended

Classification according to	Regulation (EC) NO 1272/2008 as amended	
This mixture does not mee	et the criteria for classification according to Regulation (EC) 1272/2008 as amended.	
Hazard summary	Prolonged exposure may cause chronic effects. Not classified for health hazards. However occupational exposure to the mixture or substance(s) may cause adverse health effects.	
2.2. Label elements		
Label according to Regulat	ion (EC) No. 1272/2008 as amended	
Hazard pictograms	None.	
Signal word	None.	
Hazard statements	The mixture does not meet the criteria for classification.	
Precautionary statements		
Prevention	Observe good industrial hygiene practices.	
Response	Wash hands after handling.	
Storage	Store in a manner to minimize airborne dust.	
Disposal	Dispose of waste and residues in accordance with local authority requirements.	
Supplemental label information	None.	
2.3. Other hazards	None known.	

## **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

#### General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	INDEX No.	Notes
Cement, Alumina, Chemi	cals 20 - 40	65997-16-2 266-045-5	-	-	
Classification:	-				
Expanded Perlite	10 - 20	93763-70-3	-	-	
Classification:	Aquatic Chronic 4;H413				

#### List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).

Crystalline silica may be present at low concentrations; most of this is encapsulated in the coarse aggregate or as part of the clays or sands.

#### **SECTION 4: First aid measures**

General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.	
4.1. Description of first aid measures		
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.	
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.	
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention if symptoms occur.	
4.2. Most important symptoms and effects, both acute and delayed	Exposure may cause temporary irritation, redness, or discomfort.	
4.3. Indication of any immediate medical attention and special treatment needed	Treat symptomatically.	
SECTION 5: Firefighting	measures	
General fire hazards	Not available.	
5.1. Extinguishing media Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.	
Unsuitable extinguishing media	Not available.	
5.2. Special hazards arising from the substance or mixture	Not available.	
5.3. Advice for firefighters Special protective equipment for firefighters	Not available.	
Special fire fighting procedures	Not available.	
SECTION 6: Accidental re	elease measures	
6.1. Personal precautions, prot	ective equipment and emergency procedures	
For non-emergency personnel	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.	
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.	

**6.2. Environmental** Avoid discharge into drains, water courses or onto the ground. **precautions** 

6.3. Methods and material for containment and cleaning up

Stop the flow of material, if this is without risk. Following product recovery, flush area with water.

**6.4. Reference to other** For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS. sections

#### **SECTION 7: Handling and storage**

7.1. Precautions for safe handling	Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not breathe dust. Avoid prolonged exposure.
7.2. Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### **Occupational exposure limits**

UK. EH40 Workplace Exposure Limits (WELs)

Components	Туре	Value	Form
Expanded Perlite (CAS 93763-70-3)	TWA	4 mg/m3	Respirable dust.
		10 mg/m3	Inhalable dust.
Kaolin (CAS 1332-58-7)	TWA	2 mg/m3	Respirable dust.
Quartz (SiO2) (CAS 14808-60-7)	TWA	0.1 mg/m3	Respirable.
Biological limit values	No biological exposure limits noted for	the ingredient(s).	
Recommended monitoring procedures	Follow standard monitoring procedure	S.	
Derived no effect levels (DNELs)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
Exposure guidelines	Occupational exposure to nuisance du be monitored and controlled. Occupat respirable crystalline silica should be n	onal exposure to nuisance du	
8.2. Exposure controls			
Appropriate engineering controls	Good general ventilation (typically 10 be matched to conditions. If applicable engineering controls to maintain airbo limits have not been established, mair	e, use process enclosures, loca rne levels below recommende	al exhaust ventilation, or other d exposure limits. If exposure
Individual protection measur	es, such as personal protective equi	oment	
General information	Personal protection equipment should with the supplier of the personal protection of the personal personal protection of the personal pers		EN standards and in discussion
Eye/face protection	Wear safety glasses with side shields	(or goggles).	
Skin protection			
- Hand protection	Wear appropriate chemical resistant g	loves.	
- Other	Wear suitable protective clothing.		
Respiratory protection	Use a NIOSH/MSHA approved respirat exceeding the exposure limits.	or if there is a risk of exposure	e to dust/fume at levels
Thermal hazards	Wear appropriate thermal protective c	lothing, when necessary.	

Hygiene measures

Environmental exposure controls

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental manager must be informed of all major releases.

## **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties Appearance

Appearance	
Physical state	Solid.
Form	Solid.
Colour	Not available.
Odour	Not available.
Odour threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or e	-
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapour pressure	Not available.
Vapour density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Solubility (other)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not explosive.
Oxidising properties	Not oxidising.
9.2. Other information	No relevant additional information available.
SECTION 10: Stability an	-
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
	No state a success de la constate de

10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Contact with incompatible materials.
10.5. Incompatible materials	Powerful oxidizers. Chlorine. Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not be specific to industrial application exposure.
10.6. Hazardous	No hazardous decomposition products are known.

decomposition products

## **SECTION 11: Toxicological information**

General informationOccupational exposure to the substance or mixture may cause adverse effects.Information on likely routes ofProlonged inhalation may be harmful.InhalationProlonged inhalation may be harmful.Skin contactNo adverse effects due to skin contact are expected.Eye contactDirect contact with eyes may cause temporary irritation.IngestionMay cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.SymptomsExposure may cause temporary irritation, redness, or discomfort.

#### 11.1. Information on toxicological effects

Acute toxicity	Not known.	
Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible.	
Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible.	
Respiratory sensitisation	Due to partial or complete lack of data the classification is not possible.	
Skin sensitisation	Due to partial or complete lack of data the classification is not possible.	
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.	
Carcinogenicity	In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. Risk of cancer cannot be excluded with prolonged exposure.	
Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.	
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.	
Mixture versus substance information	No information available.	
Other information	This product has no known adverse effect on human health.	

## **SECTION 12: Ecological information**

12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	No data is available on the degradability of this product.
12.3. Bioaccumulative potential	No data available.
Partition coefficient n-octanol/water (log Kow)	Not available.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	Not available.
12.6. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

## potential, endocrine disruption, global warming potential) are expected from this component.

### **SECTION 13: Disposal considerations**

13.1. Waste treatment methods		
Residual waste	Not available.	
Contaminated packaging	Not available.	
EU waste code	Not available.	
Disposal methods/information	This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.	

SECTION 14: Transport i	nformation
ADR	
14.1 14.6.: Not regulated as	s dangerous goods.
RID	
14.1 14.6.: Not regulated as	s dangerous goods.
ADN	
14.1 14.6.: Not regulated as IATA	s dangerous goods.
14.1 14.6.: Not regulated as	s dangerous goods
IMDG	
14.1 14.6.: Not regulated as	s dangerous goods.
14.7. Transport in bulk according to Annex II of Marpol and the IBC Code	Not applicable.
SECTION 15: Regulatory	information
15.1. Safety, health and enviro	onmental regulations/legislation specific for the substance or mixture
EU regulations	
Regulation (EC) No. 2037/	2000 on substances that deplete the ozone layer, Annex I
Not listed.	
Not listed.	2000 on substances that deplete the ozone layer, Annex II
	2004 on persistent organic pollutants, Annex I
Not listed.	······································
Regulation (EU) No. 649/2 amended	2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as
Not listed. Regulation (EU) No. 649/2 amended	2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as
Not listed. Regulation (EU) No. 649/2 amended	2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as
	2012 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed. Regulation (FC) No. 166/2	2006 Annex II Pollutant Release and Transfer Registry
Not listed.	
	2006, REACH Article 59(10) Candidate List as currently published by ECHA
Authorisations	
Regulation (EC) No. 1907/ Not listed.	2006, REACH Annex XIV Substances subject to authorization, as amended
Restrictions on use	
Regulation (EC) No. 1907/	2006 Annex XVII Substances subject to restriction on marketing and use
Not regulated.	2006, REACH Annex XIV Substances subject to authorization, as amended
Not listed. Directive 2004/37/EC: on mutagens at work	the protection of workers from the risks related to exposure to carcinogens and
Not listed.	
Other EU regulations	
	major accident hazards involving dangerous substances, as amended
Not listed.	
Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents.

## **SECTION 16: Other information**

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	Not available.
Full text of any H-statements not written out in full under Sections 2 to 15	H413 May cause long lasting harmful effects to aquatic life.
Revision information	Product and Company Identification: Product and Company Identification
Training information	Not available.
Disclaimer	This information is based on our present knowledge on creation date. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
