

1. Identification

| Product identifier | BOF 411 SERIES | |
|----------------------------------|-------------------------------------|----------------|
| Other means of identification | | |
| Brand Code | 8866, 215C, 7024 | |
| Recommended use | For Industrial Use Only | |
| Recommended restrictions | None known. | |
| Manufacturer/Importer/Supplier/I | Distributor information | |
| Manufacturer | | |
| Company name | HarbisonWalker Internationa | I |
| Address | 1305 Cherrington Parkway, Suite 100 | |
| | Moon Township, Pennsylvar | nia 15108 US |
| Telephone | General Phone: | 412-375-6600 |
| Website | www.thinkHWI.com | |
| Emergency phone number | CHEMTREC 24 HOUR EMERGENCY # | 1-800-424-9300 |

2. Hazard(s) identification

Classified hazards

This item is defined as an article per OSHA, REACH, and WHMIS and is therefore exempt from labeling. A Safety Data Sheet is available.

This item is not Classified as hazardous. However, individual customer processes (such as grinding, sawing, or blasting) may result in the formation of dust that may present health hazards. Wear protective gloves/protective clothing/eye protection.

Label elements

This item is defined as an article per OSHA, REACH, and WHMIS and is therefore exempt from labeling. A Safety Data Sheet is available.

This item is not Classified as hazardous. However, individual customer processes (such as grinding, sawing, or blasting) may result in the formation of dust that may present health hazards. Wear protective gloves/protective clothing/eye protection.

Hazard(s) not otherwise classified (HNOC)

This item is defined as an article per OSHA, REACH, and WHMIS and is therefore exempt from labeling. A Safety Data Sheet is available.

This item is not Classified as hazardous. However, individual customer processes (such as grinding, sawing, or blasting) may result in the formation of dust that may present health hazards. Wear protective gloves/protective clothing/eye protection.

3. Composition/information on ingredients

Mixtures

| Chemical name | Common name and synonyms | CAS number | % |
|-----------------------------|--------------------------|------------|----------|
| Magnesium Oxide | | 1309-48-4 | 80 - 90 |
| Aluminium | | 7429-90-5 | 2.5 - 10 |
| Graphite | | 7782-42-5 | 2.5 - 10 |
| Phenol | | 108-95-2 | 0.1 - 1 |
| Other components below repo | rtable levels | | 2.5 - 10 |

4. First-aid measures

| Inhalation | Move to fresh air. Call a physician if symptoms develop or persist. |
|--------------|--|
| Skin contact | Wash off with soap and water. Get medical attention if irritation develops and persists. |
| Eye contact | Rinse with water. Get medical attention if irritation develops and persists. |
| Ingestion | Rinse mouth. Get medical attention if symptoms occur. |

| Most important symptoms/effects, acute and delayed | Direct contact with eyes may cause temporary irritation. |
|--|--|
| Indication of immediate medical attention and special treatment needed | Treat symptomatically. |
| General information | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |
| 5. Fire-fighting measures | |

| 00 | |
|--|---|
| Suitable extinguishing media | Use fire-extinguishing media appropriate for surrounding materials. |
| Unsuitable extinguishing media | Not available. |
| Specific hazards arising from the chemical | Not applicable. |
| Special protective equipment | Not available. |

Special protective equipment and precautions for firefighters

6. Accidental release measures

Personal precautions,
protective equipment and
emergency proceduresKeep unnecessary personnel away. For personal protection, see section 8 of the SDS.Methods and materials for
containment and cleaning upStop the flow of material, if this is without risk. Following product recovery, flush area with water.
For waste disposal, see section 13 of the SDS.Environmental precautionsAvoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Conditions for safe storage, including any incompatibilities Observe good industrial hygiene practices. Not available.

8. Exposure controls/personal protection

Occupational exposure limits This mixture has no ingredients that have PEL, TLV, or other recommended exposure limit.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components | Туре | Value | Form |
|---------------------------------------|------|----------|----------------------|
| Aluminium (CAS 7429-90-5) | PEL | 5 mg/m3 | Respirable fraction. |
| , , , , , , , , , , , , , , , , , , , | | 15 mg/m3 | Total dust. |
| Graphite (CAS 7782-42-5) | PEL | 5 mg/m3 | Respirable fraction. |
| | | 15 mg/m3 | Total dust. |
| Magnesium Oxide (CAS 1309-48-4) | PEL | 15 mg/m3 | Total particulate. |
| US. OSHA Table Z-3 (29 CFR 1910.1 | 000) | | |
| Components | Туре | Value | Form |
| Aluminium (CAS 7429-90-5) | TWA | 5 mg/m3 | Respirable fraction. |
| | | 15 mg/m3 | Total dust. |
| | | 50 mppcf | Total dust. |
| | | 15 mppcf | Respirable fraction |
| Graphite (CAS 7782-42-5) | TWA | 15 mppcf | |
| Magnesium Oxide (CAS 1309-48-4) | TWA | 5 mg/m3 | Respirable fraction. |
| | | 15 mg/m3 | Total dust. |
| | | 50 mppcf | Total dust. |
| | | 15 mppcf | Respirable fraction. |
| US. ACGIH Threshold Limit Values | | | |
| Components | Туре | Value | Form |
| Aluminium (CAS 7429-90-5) | TWA | 1 mg/m3 | Respirable fraction. |
| Graphite (CAS 7782-42-5) | TWA | 2 mg/m3 | Respirable fraction |
| Magnesium Oxide (CAS 1309-48-4) | TWA | 10 mg/m3 | Inhalable fraction. |

US. NIOSH: Pocket Guide to Chemical Hazards

| Components | Туре | Value | Form |
|-----------------------------------|---|---------------------------|---------------------------------------|
| Aluminium (CAS 7429-90-5) | TWA | 5 mg/m3 | Welding fume or pyrophoric powder. |
| | | 5 mg/m3 | Respirable. |
| | | 10 mg/m3 | Total |
| Graphite (CAS 7782-42-5) | TWA | 2.5 mg/m3 | Respirable. |
| iological limit values | No biological exposure limits noted fo | r the ingredient(s). | |
| xposure guidelines | The resin binder in this product was specifically engineered to have low toxicity, with minimal free-phenol (less than 100ppm in this refractory product) and no free-formaldehyde. Under certain conditions, thermal decomposition products may still include carbon monoxide, carbon dioxide, formaldehyde, phenol and aromatic and/or aliphatic compounds. | | |
| ppropriate engineering ontrols | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. | | |
| ndividual protection measures, | such as personal protective equipme | ent | |
| Eye/face protection | Wear safety glasses with side shields | (or goggles). | |
| Skin protection | | | |
| Hand protection | Wear appropriate chemical resistant g | gloves. | |
| Other | Wear suitable protective clothing. | | |
| Respiratory protection | Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. | | |
| Thermal hazards | Wear appropriate thermal protective of | clothing, when necessary. | |
| | | | |

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

| , , | • |
|---|----------------|
| Appearance | |
| Physical state | Solid. |
| Form | Solid. |
| Color | Not available. |
| Odor | Not available. |
| Odor threshold | Not available. |
| рН | Not available. |
| Melting point/freezing point | Not available. |
| Initial boiling point and boiling range | Not available. |
| Flash point | Not available. |
| Evaporation rate | Not available. |
| Flammability (solid, gas) | Not available. |
| Upper/lower flammability or expl | osive limits |
| Flammability limit - lower (%) | Not available. |
| Flammability limit - upper (%) | Not available. |
| Explosive limit - lower (%) | Not available. |
| Explosive limit - upper (%) | Not available. |
| Vapor pressure | Not available. |
| Vapor density | Not available. |

| Relative density | Not available. |
|--|----------------|
| Solubility(ies) | |
| Solubility (water) | Not available. |
| Partition coefficient (n-octanol/water) | Not available. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature | Not available. |
| Viscosity | Not available. |
| Other information | |
| Explosive properties | Not explosive. |
| Oxidizing properties | Not oxidizing. |

10. Stability and reactivity

| for orability and readinity | |
|---------------------------------------|--|
| Reactivity | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| Chemical stability | Material is stable under normal conditions. |
| Possibility of hazardous reactions | No dangerous reaction known under conditions of normal use. |
| Conditions to avoid | Contact with incompatible materials. Refractories containing crystalline silica may, after service, contain more or less crystalline silica. Care must be taken to avoid and/or control dust from demolition. If in doubt of the proper protection, seek advice from a safety professional. |
| | The organic binder in this product falls into a class known as phenolic resin. Refractory products using this type of binder are supplied in two forms, (1) shaped products such as brick and (2) monolithics/specialties such as refractory plastics and rams. The hazards associated with phenolic resin are different in the two forms. For pre-cured shapes (brick), the binder has been reacted or polymerized by heat to its solid form prior to shipment. On decomposition by heating, where there is sufficient air and heating rate, the gaseous products are mostly carbon dioxide and water. Under low or limited oxygen supply, decomposition products during heat-up and early service may include phenol, as well as aromatic and/or aliphatic derivatives. After a campaign in service, this refractory product should be completely coked and in that condition the material for disposal would be carbon and an inorganic oxide. During field installation of non-cured unshaped products (monolithics), there is a possibility of exposure to trace amounts of phenol by skin contact and inhalation. After the product has been heated to high temperatures in service, it will have similar decomposition characteristics to pre-cured shapes. |
| Incompatible materials | Strong oxidizing agents. Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not be specific to industrial application exposure. |
| Hazardous decomposition products | No hazardous decomposition products are known. |

11. Toxicological information

Information on likely routes of exposure

| No adverse effects due to inhalation are expected. |
|---|
| No adverse effects due to skin contact are expected. |
| Direct contact with eyes may cause temporary irritation. |
| Expected to be a low ingestion hazard. |
| Direct contact with eyes may cause temporary irritation. |
| cts |
| Not available. |
| Prolonged skin contact may cause temporary irritation. |
| Direct contact with eyes may cause temporary irritation. |
| |
| Not a respiratory sensitizer. |
| This product is not expected to cause skin sensitization. |
| |

| Germ cell mutagenicity | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. |
|--|---|
| Carcinogenicity | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. |
| IARC Monographs. Overall I | Evaluation of Carcinogenicity |
| Not listed. | |
| | gram (NTP) Report on Carcinogens |
| Not listed. US. OSHA Specifically Regu | llated Substances (29 CFR 1910.1001-1050) |
| Not regulated. | |
| Reproductive toxicity | This product is not expected to cause reproductive or developmental effects. |
| Specific target organ toxicity - single exposure | Not classified. |
| Specific target organ toxicity - repeated exposure | Not classified. |
| Aspiration hazard | Not an aspiration hazard. |
| 12. Ecological information | |
| Ecotoxicity | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |
| Persistence and degradability | No data is available on the degradability of this product. |
| Bioaccumulative potential | |
| Mobility in soil | No data available. |
| Other adverse effects | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |
| 13. Disposal consideration | IS |
| Disposal instructions | This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. |
| Hazardous waste code | Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority. |
| Waste from residues / unused products | Not available. |
| | |

| Contaminated packaging | Not available. |
|------------------------|----------------|
|------------------------|----------------|
